Help Is Needed For Little League To Survive Here

With the start of the Little League baseball season next Tuesday, May 19th, an urgent plea is made by the officers and directors for help in managers and coaches for minor league teams.

Much of the success for the continuation of Little League in Grayling depends on the response from interested fathers and others to the plea. Because of the size of the program, a few men cannot handle it. They need everyone's help.

Little League here is in its infancy, but through hard work last year we have a beautiful Little League diamond. This possibly could have been in vain unless help is forthcoming. If you are interested contact Bob Golinick, phone 348-8141.

Earl Simmons of Detroit, a member of Grayling Moose Lodge has donated a number of uniforms for the minor league teams. Thru Mr. Simmons efforts it is hoped to outfit the whole league in the near future.

LITTLE LEAGUE UMPIRES' MEETING, WED., MAY 13th
There will be an Umpires meeting Wednesday, May 13th at 7:30 p. m. in the Viking Room of the Chief Shoppe. All last year's umpires are expected to serve another term. More men are needed, so grab your dark glasses and white cane and attend this meeting.

FIRE DEPT. SEEKS JULY 4th FUNDS

The Grayling Fire Department had hoped for a larger turnout at its canoe trip, May 3 but this did not develop, and the Department will have to ask for contributions to make up the \$350 necessary to complete all details for the planned Fourth of July celebration. Two fire trucks will be calling on places of business on Friday, May 15th and Saturday, May 16th, for donations, which are purely voluntary. All contributors will receive a t-shirt from the firetruck siren. Individuals who are downtown on those days may make donations to those on the firetrucks also, which will be gratefully received.

The fireworks which will climax a full day of fun on July Fourth, will be set off in the City park on the west side of the river bank between the railroad bridge and the pump house. These should be visible for a great distance.

The Department now has on hand a number of fire extinguishers, and profits from the sale of these will be put in the Fourth of July fund.

Michigan Con Joins In Fight To Save Rails

Michigan Consolidated Gas Company announced today it has contributed \$500 to help keep rail service in Northern Michigan. James C. Preston, general manager of Michigan Consolidated's Northern District, said the utility presented the check to the Committee for Retention of Rail and Ferry Service.

Preston also offered use of company sponsored radio and television commercial time to help inform the public on the railway issue.

Michigan Consolidated believes that Northern Michigan is on the verge of great economic expansion. Preston said, "and it is essential that the area have adequate rail transportation to fully realize its potential growth."

He pointed out that the railroad's proposal to abandon service would discourage new industry from locating in Northern Michigan "and defeat much of the good work that has been done by Chambers of Commerce, industrial development groups and others who are working tirelessly to bring more industry here."

Preston said that Michigan Consolidated is in the process of investing some \$15 million to extend natural gas service to 55 communities in the northern half of the Lower Peninsula this year and has added 70 communities to its Northern District in the past eight years.

"We have made this large investment here because we believe in the future of Northern Michigan and because low cost fuel is a necessary ingredient attracting industry. Rail service is another important ingredient and Michigan Consolidated is anxious to join with other business concerns in doing everything it can to retain it," Preston said.

Nation's Hospitals Mark National Hospital Week

A patient spends half as much time and gets better faster today in a hospital than he did 30 years ago, Sister Mary Janice, R.S.M., administrator of Mercy Hospital said on the opening of National Hospital Week, May 10-16.

Mercy Hospital is joining other hospitals throughout the nation in observing National Hospital Week, held annually during the week of Florence Nightingale's birthday (May 12). The week is sponsored by the American Hospital Association to give individuals an opportunity to learn more about the hospitals in their community.

Services, drugs and methods of patient care that were unknown a few years ago have helped reduce the average stay of a patient, Sister Mary Janice, R.S.M., explained.

"Thirty years ago, the person who entered a hospital could expect to stay approximately 44 days. Today, he can anticipate a visit averaging 7.6 days, thanks to these improved methods of care."

These improved methods, she explained, are the result of scientific developments in health care, more efficient diagnosis and treatment, and higher medical standards.

"New triumphs of medical science mean not only new supplies and equipment for the hospital but also require new skills for hospital personnel and new technicians to operate some of the advanced equipment. The doctor's orders today often call many trained teams into action."

As this progress is made in medical care and hospitals become vastly more complex, they need more and more personnel to care

To Dedicate Shore-To-Shore Trail Friday

A unique shore-to-shore, bridle and hiking trail in the northern Lower Peninsula will be dedicated May 15, near Kalkaska.

Backers of the project, which winds from Empire and Frankfort on Lake Michigan to Tawas City on Lake Huron, hope to have Governor Romney on hand to officially set aside the 220 mile trail for recreation.

The dedication ceremonies will find most of the trail marked with paint blazes and posts by the Conservation Department and U. S. Forest Service. However, connecting spurs and such facilities as camping sites and hitching areas will not be completed by this time in many sections of the trail.

While new projects unfold, popularity of the trail continues to grow. Officials of the newly formed Michigan Trail Riders Association announced that their group is sponsoring a nine-day cross country trip from west to east. The outing is scheduled for June 20-28.

Plans were completed at a meeting at Kalkaska last Monday night at which representatives of the three major groups involved were present: they are the Department of Conservation, Consumers Power Company, and the U. S. Forest Service.

Invitations have gone forth to a number of schools in the area to send their bands, to all the Riding Clubs along the trail, to Boy Scout Troops and other groups interested in hiking on the trail, to participate in the dedication ceremonies.

Each committee holds a weekly meeting with its dean. The governing groups, along with faculty heads, form a School Council which meets once each month to exchange ideas, make suggestions and establish new policies. The Governing Committee

takes an active part in planning social activities and helps to set up and enforce school regulations.

Dick Rasmussen is a salesman at the Welsh Ford agency, having begun his duties there last week.

Mrs. Lester Trenary, who has operated the Trenary Rustic Motel for many years, is not reopening the motel this year. She is planning to stay on at Central Lake where she spent the winter, and resume her former work as a teacher.

Mrs. Herbert Wolff was hostess at a luncheon Tuesday noon at Chief Shoppenagons Motor Hotel given in honor of Mrs. Fred Bear, who began with Mr. Bear last week a six-week trip to Africa and Europe.

Honored With Bridal Shower

Miss Greta Rasmussen was the guest of honor at a miscellaneous bridal shower given at the American Legion Hall Wednesday evening by Mrs. William Cox, Mrs. George McEvers, Mrs. Don Rockman and Mrs. Richard Lepsky of Gaylord. Twenty-six ladies were on hand to extend best wishes to the bride-elect. Card bingo was played, and another game in which prizes were won by Ruth Gorman and Mrs. Herbert Holmes. Greta opened her many lovely gifts and displayed them, and then refreshments were served, with everyone having a most enjoyable evening.

STATE POLICE WARN OF CHILD MOLESTING

Because child molesting increases sharply in warm weather months, parents are strongly urged by Sgt. Donald Bobo, commander of the Houghton Lake State Police post, to warn their youngsters of the possible dangers in contacts with strangers who offer gifts of candy or money and want them to go for rides or walks.

Sergeant Bobo advised parents to report all molesting incidents to police with as many details as possible. This helps officers take action necessary to apprehend offenders and to prevent recurrence.

He points out that names of minors involved and their parents are not used by the press, radio and TV, except in emergencies of abduction and murder. Reluctance in reporting thwarts police action and also hides the true total of these incidents.

Last year the State Police investigated 520 sex offense complaints, which include child molestation.

As in other years complaints were most numerous in summer. August was high with 64, July next with 62 and June third with 52. May and October had 50 each while April and September each had 47. The other five months had totals under 40.

Sergeant Bobo suggested that parents instruct their children to follow these rules:

1. Don't go for rides or walks with strangers and avoid being tempted to do so by candy or money gifts from them.

2. Have companions with you when you play outdoors and if possible when going to and from school, on shopping errands, or to the movies, fairs and carnivals.

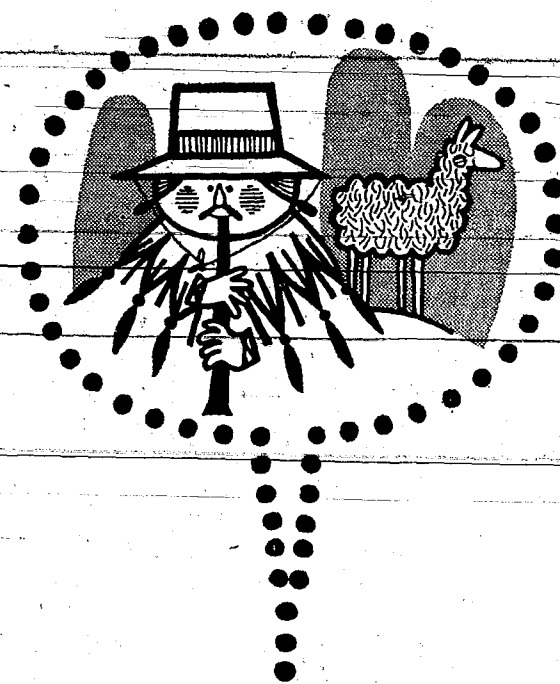

3. Avoid playing in isolated areas and vacant buildings.

4. Report to your parents, police or teacher anyone who tries to get you to break these rules or when you have any question concerning your safety.

Sergeant Bobo added that children can help curb molestation incidents by remembering features about suspected or actual molesters, such as approximate height, weight, age, color of eyes, skin and hair and unusual things such as mustache, tattoos, jewelry, scars and physical defects. If there is a car involved, details about it also should be memorized or marked down somehow.

He pointed out that anyone investigated because his presence near children arouses suspicion should not be offended if he has proper explanation for his activity.

People who live in Gas-heated houses
think chilly is a country in
South America.

You, too, can forget what it means to be chilly. You can also forget what it's like to shiver in drafts, shovel coal by the ton, sweat out fuel deliveries in stormy weather, fight a losing battle against soot and grime, and pay expensive fuel bills.

How?

Simply by remembering to sign up for natural Gas service now. That way you'll be certain to be among the first in your area to enjoy the cleanliness, reliability, speed, efficiency, convenience and economy of Gas heat. This fall. This winter. The rest of your life.

Contact your heating contractor today. You'll find a Gas unit installs in a matter of hours, pays for itself many times over in reduced fuel bills.

And for further information, advice or assistance, call us. As always, we'll be happy to be of service. Just call 348-6581; if yours is a toll call, call collect. (We'll be happy to tell you about the advantages of Gas water heaters, Gas ranges, Gas dryers, Gas incinerators and Gas air conditioners, too.)

Sign up TODAY! Be the first in your neighborhood to live modern... for less... with Gas.

Is Your Snail Sick?

What is your tax money used for?

There's an easy answer — to pay for the national defense, to maintain the executive, legislative and judicial departments of the government, and so on.

But it's the safest of bets that the average citizen, having just survived the April 15 tax bite, would be amazed if he knew where some of his money goes.

Examples: The federal government spent \$18,000 on a study to learn why patients break appointments at pediatric clinics. It spent \$1,250,000 to study the relationship between an infant monkey and its mother. It spent \$11,500 to study blood group genetics of Southampton Island Eskimos. It spent \$20,092 to study diseases of the giant snail.

Such a list could be continued almost involved. These are examples of what happens when a central government, peopled by avaricious bureaucrats all seeking more power and larger appropriations, try to do all things for all men and all interests.

Large oaks from little acorns grow. Small cuts, in totally nonessential government projects, can add up to large budget reductions, to the benefit of us all.

From The Bunch Grass . . .

Isn't it too bad the blacksmith and the corset maker didn't last a little longer so they could have gotten federal help as a distressed industry?

Once upon a time it was the lax and lazy who became the slaves. Now, thanks to the ballot, they are able to enslave the producing and the saving.

The opinions expressed are those of Giles French, University of Oregon class of 1921, former state legislator and, until recently, editor and publisher of the weekly Sherman County Journal, published in Moro, Oregon.

WHY MOTHERS GET GRAY

Jugglers On A Tight Rope . . .

In spite of the Administration's glowing forecasts, a strong economy depends on much more than merely the enactment of the \$11 billion reduction in income taxes.

There is even more at stake in price and wage developments. Some of the major labor-unions are about to demand new contracts for higher wages and a shorter work week.

The economic appletart already is top heavy. There will be another national deficit.

The balance of payments deficit, with its inroads on our nation's gold reserves, continues.

The consumer price indices have not run away, but the trend has been steadily, if slowly, upward. Now add to these the pressure for higher wages and a shorter work week.

Any surge of costs now, whether in the price of labor or anything else, could result in disastrous inflation. The jugglers are performing on a very delicate tight rope.

"The Pines", a modern 500-seat theatre of unique rustic design to blend with the natural beauty of its forest and lake surroundings, will open at Houghton Lake May 22. Designed by Howard Crane, "The Pines" is built of huge natural logs and granite. It combines the picturesque features of a luxurious Swiss chalet and the ruggedness of a north woods hunting lodge.

Four weeks from tonight Grayling High School will be the setting for the annual graduation exercises. Of the thirty-one candidates for diplomas, two have been outstanding for the four years of work. With eighty-four honor points out of a possible eighty-four for the work taken, Patricia Louise Roberts leads the class of 1941 in scholarship with an average of 3.00. Her all-A record is an unusual achievement and she is a fitting Valedictorian for her class. Miss Roberts is the daughter of Mr. and Mrs. Albert L. Roberts of Grayling.

Mr. and Mrs. Waldemar Hanson and son Mickey, Miss Caroline Welch and Anker Hanson, all of Saginaw, spent the weekend visiting their parents.

Dr. J. Fred Cook and Miss Ina Tapio were united in marriage Friday, May 9 in Detroit at the Unity Lutheran church. They were attended by Miss Lillian Tapio, sister of the bride, of Detroit, and Mr. Hugh Cook, brother of the groom, of Ann Arbor. Rev. Syles ter Boger, pastor, performed the ceremony. Dr. Cook took his preparatory work in dentistry at Alma college and graduated from Marquette University of Milwaukee. For the past seven years he has practiced his profession in Grayling.

Mr. and Mrs. Ed Rauss and Mr. Bruce Makinnon of Detroit were guests of Mr. and Mrs. William MacLeod over the weekend. Sunday the party took a canoe trip down the AuSable which they enjoyed very much.

Mrs. Elizabeth Millikin had the misfortune to lose her home and its contents, located at the corner of Vine and Erie streets, by fire early Saturday afternoon. Mrs. Millikin was getting lunch ready for herself and ran over to one of her neighbors for a minute and while she was gone her coffee pot boiled over, making her kerosene oil stove flare up and catching fire to the four-room building. The fire had gained such headway by the time the fire department arrived it was impossible to save the building. Other buildings in that vicinity were also in danger as large sparks flew high and wide. We understand the loss was covered by insurance. Monday afternoon the fire department made a run to that same part of town when a grass fire got started. There was a high wind blowing at the time.

The Department of Conservation is about ready to open a training school on the shores of Higgins Lake near the state forestry. Russell Martin will be the instructor in charge. This promises to be an extensive project and will be continued over many years.

Of interest to friends in Grayling will be the announcement of the marriage in Bay City of Carl J. Englund, son of Mrs. Carl E. Englund, to Miss Arlene M. McGivern, daughter of Mr. and Mrs. Joseph F. McGivern. The ceremony was performed at the West Baptist church of Bay City Saturday evening, May 10. Mrs. Norman Lewis, sister of the bride, was matron of honor and Miss Marguerite Englund, sister of the groom, was bridesmaid. Mr. Englund had as his best man Frank G. Emerson of Detroit, and Donald Englund, brother of the groom, was one of the ushers. Those from Grayling in attendance were Mr. and Mrs. Algot Johnson, and Mr. and Mrs. Howard Granger.

Mr. and Mrs. James Woodis of Grand Ledge have purchased a place on the Hartwick Pines road and are building a tourist camp. This is about 1 1/2 miles southwest of the Pines. They also plan to serve lunches.

Moose Lodge Activities

Due to circumstances beyond our control, remodeling on the club wasn't started this past week, however it is hoped that it will be started this week. The fund is still growing at a very nice rate. As of Sunday we had a total of \$185.00. The bathrooms are in the process of being repainted, and some cleaning done.

The lodge will accept all donations of any kind, as far as furniture, clothing, food, or money is concerned, for the tornado-stricken areas in the southern part of the state. As soon as a truck load is available, it will go directly to the disaster area. As many trips as necessary will be made as the donations come in. We have one truck available, and possibly two, for hauling of these donations. The donations will not be made to the lodge, but to the people of the disaster area, from the people of Crawford County, or wherever it comes from.

This weekend will be a busy one. Friday evening is regular meeting night, which will also be social night. Also there will be an officers' meeting.

Saturday we hope to do a lot of work on our building, by getting the porch enclosed and the door changed. Saturday evening we have music by the northeners, also this will be birthday night, for all members who have a birthday during the month of May. Sunday there will be a district meeting at the lodge at 3 p.m. We would like as many members as can possibly do so to attend, as there is much that can be learned from these meetings. Lodges in the district are Traverse City, Reed City, Manistowish, Ludington, Cadillac and Grayling. The meeting will be conducted by Bill Fitzgerald, who is state vice-president for the district.

The W.O.T.M. have their meeting this coming Monday at the lodge at 8:00 p.m. Any W.O.T.M. interested in running for an office this year should sign their name on the bulletin board. Only one office is opposed and the women would like to see all offices opposed. The election concerns all W.O.T.M., so all should take an interest.

CARD OF THANKS

My thanks to Fr. Kroboth, the Sisters of Mercy, nurses and friends and neighbors for kind care and thoughtfulness while I was in the hospital.

Final Results Of Indoor Archery League

Last week the final round of the Grayling Bowhunter's Indoor League was shot. Final tabulations showed the following results:

Team	Captain	Won	Lost
1	Bob Smock	48	22
2	Bill Stewart	45	25
3	Jim Hatfield	39	31
4	Don Stough	38	32
5	Hazen Hatfield	34	36
6	Bob Pratt	32	38
7	Roy Roper	26	44
8	Don Koch	21	49

High score accomplished with a bow sight was 351 by Ed Malinowski.

High instinctive score of 333 was achieved by Bob Smock, Jr.

For the past two weeks members of the Bowhunters have been busy getting their outdoor range in top shape. New field ranges have been laid out, all baes re-wired, large earth backstops bulldozed behind each target position, new practice area constructed, new deer silhouette range laid out, general clean-up of the entire area, and best of all a fine new well put in near the shelter house. Robert Funk of Grayling Electric & Heating did the well drilling job.

In another week everything will be organized to start the summer Outdoor League. Shooting will be one evening per week. Teams will consist of two members each and all scoring will be on a handicap basis, thus allowing rank beginners as much chance of winning as the more experienced archers.

Anyone interested in joining this league is welcome, but such interest should be expressed soon. Contact Club Secretary Becky Fall or members of the Bowhunters such as Bob Smock, Howard Hatfield, Chuck Kroll or Bob Kelly.

Grayling Students Attend MSU International Festival

Students from the Grayling Public Schools 9th and 10th grade Spanish classes attended the International Festival which was presented on Saturday, May 9, in the Michigan State University main auditorium. The International Festival consisted of two main events. Arts, handicrafts, household items, clothing and other things from many foreign countries were on exhibition in booths set up by the foreign students at Michigan State, who were also on hand to answer questions and discuss their countries with visitors. The second part of the Festival was a stage presentation of dances and music of the participating countries, put on by the students, which offered an opportunity to see more typical costumes. The contact with foreign talents and students proved to be a very interesting and educational experience for the Grayling young people.

In Michigan... after a swim, beer is a natural

On a hot summer day, a dip in a cool stream can be wonderfully refreshing. Equally refreshing when you're relaxing afterwards with friends is a hearty glass of beer. There's hardly another beverage around that suits what you do for fun as much as beer. Cooling, bubbling, or just lounging on a lawn chair, beer brings to you the right touch of extra good living.

Your faithful glass of beer is also a pleasurable reminder that to live in a land of personal freedom—and that our right to enjoy it and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Michigan...beer goes with fun. With relaxation.

Denton Sr. a Chevrolet 1/2-ton pick-
up, to John Sullivan of Houghton

Letters To The Editor

To the people of the
Twenty-Eighth State
Senatorial District:

I am sorry that the news em-
anating from Lansing has failed to
state the purpose of my action,
and others, in getting before the
Legislature bills for redistricting.
The proposed redistricting plans
had been offered in February and
were in - committee. Under the
rules, a redistricting plan must be
passed in the house of origin and
lie over for five days before the
other house can act.

Eight days before adjournment,
the action which was criticized was
taken so that districting plans
could be before both houses of the
legislature for study.
We must recognize that neither
the constitutional apportionment
committee, which has worked di-
ligently, nor the court has arrived
at a decision to district the Michi-
gan Legislature. The congressional
plan passed last year has been de-
clared unconstitutional and is on
appeal to the Supreme Court of

the United States.
There was no intent to embar-
rass either the Governor or the
Republican Party by the action
taken, but to insure the existence
of the Legislature and the contin-
uity of orderly representative gov-
ernment.

This fact has been recognized by
both houses of the Legislature in
that they are both now seeking bi-
partisan support for redistricting
and reapportionment to prevent the
catastrophe of an at-large election.

It is my opinion from reviews of
court opinions, research and per-
sonal investigation, that no pure
party plan of either party will meet
the approval of the courts and al-

though I heartily support the House
version of the congressional redis-
tricting, I doubt if it can be per-
manently established.
As an active Republican for over
thirty years, I am not about to
permit the people of my district to
lose representation in an at-large
election if it can be avoided by
timely legislative action.

Yours very truly,
Harold B. Hughes
State Senator
Twenty-eighth Dist.

Crawford Co.'s Cancer Rate Higher

(Special to the Avalanche)

NEW YORK — The cancer rate in Crawford County and in most other parts of the country remains high despite the progress that has been made in combatting certain forms of the disease.

The extent of the problem is brought out in a new vital statistics report released by the U. S. Public Health Service. It covers communities in every area of the nation.

Special interest centers on the fact that April was "Cancer Control Month" and because of the recent furor over cigarette smoking and lung cancer.

The figures show that the rate of death from cancer of all types is somewhat higher among Crawford County residents than among those in most sections of the United States.

Locally, there were 8 cancer deaths in the year ending January 1, 1963, according to the official report. This does not include deaths locally of non-residents.

It represented a rate of 167 cancer deaths per 100,000 population, as against a rate of 149 per 100,000 for the nation as a whole. In the State of Michigan, the average was 145 per 100,000.

Were it not for lung cancer, which kept the mortality record

high with a 19 per cent increase in number of deaths in a three-year period, the Crawford County cancer would seem more promising.

The rate for the other types of cancer, taken as a whole, actually dropped in the period.

The good results are attributed to several factors. A principal one is that more people have been encouraged to get regular checkups so that the disease may be detected in its early stages.

Another factor is that medical researchers have gained a broader understanding of cancer cell structure and development.

The number of cancer cures attributed to their success. The American Cancer Society states that there are over 1,200,000 people in the United States who had cancer at one time and who are now considered cured.

Lung cancer, however, continues to be uppermost in the public mind, due to the cigarette issue.

Nationally, 16.6 percent of all cancer deaths in the year were due to lung cancer. In Crawford County lung cancer was responsible for only one of them.

BITS O' TALK

Mrs. Matilda Nelson, Mr. and Mrs. Earl Nelson, and Mrs. Grace Andrews were in Lowell Sunday, May 3, to visit the Hans Andrews family. Little Tina Marie Andrews accompanied them home for a week's visit. Hans and family came Friday and spent Mother's Day weekend and Tina returned home with them. Mr. and Mrs. Larry Andrews spent the weekend in Lansing visiting Mr. and Mrs. Jack Gilchrist and Mr. and Mrs. Erik Olson, and joined the rest of the family in Lowell on Sunday, May 3rd, to celebrate Little Hans Andrews' first birthday.

The Rev. Charles McMahon of St. Francis Episcopal church and the Rev. Rexford Holmes of St. John's Episcopal church in Saginaw exchanged pulpits on Sunday, May 3rd.

Richard Klein of Okemos visited his parents, the Robert Kleins, also the Walter Mekesels, for a few days last week.

Mr. and Mrs. Edward Martin and family visited their parents, the T. P. Petersons and J. L. Martins over the weekend. Mr. and Mrs. Peterson were in Vassar the previous weekend, to visit her sister, Mrs. E. O. Safford and family.

Eight of her schoolmates surprised Grayling's exchange student from Mexico, Maria Luisa Vidal, with a surprise birthday celebration in honor of her 19th birthday anniversary on Saturday, May 2. The affair was a pajama party at the A. J. Sorenson home, the girls staying all night and celebrating into the wee and not-so-wee hours.

Mrs. Herluf Sorenson celebrated her birthday anniversary on April 29, and in the afternoon several ladies dropped in for coffee and to wish her many happy returns of the day. Her daughter and husband, the Charles Moshiers, entertained Mr. and Mrs. Sorenson and her three sisters, Mrs. Ralph Jamieson and daughter Joyce, and Mrs. Pastie Johnson, of Cadillac, and Mrs. Oscar Samuelson, of Muskegon, at dinner that evening.

Mr. and Mrs. Bud Rowe of Tawas City visited their brother and family, the Stan Berrys Monday evening of last week, and were their supper guests.

KOLKA - STROEBEL UNITED IN MARRIAGE

Miss Donna Kolka, daughter of Mr. and Mrs. Dan Kolka of Grayling and Frederic Stroebel, son of Mr. and Mrs. George Stroebel of Hemlock, were united in marriage at the Methodist church in Nelson, Michigan, at two o'clock on Saturday, May 2, 1964. The single-ring ceremony was performed by the Rev. E. Doster before seventy-five guests. Traditional music was played. An arrangement of red and white roses graced the altar, with lighted candles on each side.

The bride wore a white gown of nylon and acetate, with round neckline accented with a bow, short sleeves, and full skirt with panels flowing to the hem. A tiara held her waist-length veil, and she carried a colonial bouquet with red and white roses and white streamers.

Her attendant was her sister, Mrs. Kenneth Stroebel of Hemlock, who was attired in a pale blue street-length dress with white whimsy, gloves and shoes. Her bouquet was red and white roses and carnations.

Kenneth Stroebel served as best man to his brother. Seating the guests was the brother of the bride, Larry Kolka of Saginaw. A reception was held at the church immediately following the wedding. After the bride and groom cut the traditional first slice of the four-tiered wedding cake, which was decorated with pink flowers and white swans, Marilyn Stroebel, sister-in-law, and Miss Joan Stroebel, sister of the groom served the guests.

The bride's mother chose a blue suit with white accessories for her daughter's wedding. Mrs. Stroebel wore a blue ensemble with white accessories. Both mothers wore yellow rose corsages.

Mrs. Stroebel attended Grayling schools. Her husband is a graduate of Hemlock High school and has served three years in the Air Force. Following a tour of Michigan, the newlyweds are at home on Hemlock Road in Nelson. Guests from South Haven, Lansing, Saginaw, Bay City, Flint, Detroit and Grayling attended the wedding.

Family Visit

They'll be here any minute! As soon as I finish the flowers I'll go and sit with Dad on the front porch, so we'll be right there when they all drive in. It'll be just wonderful to see them again.

Dad and I were saying last night that we couldn't have been blessed with better children or lovelier grandchildren. We've been so fortunate. Of course, there have been some tragic

and terrible times, but God has never failed to give us the strength to meet them, and the courage to go on again. We've always been a churchgoing family, and I know the children never miss a Sunday even now. Tomorrow we'll all go to church together, and it will seem like the old days when our family was still here at home. We have so much to thank God for, every one of us.

Ionia Hospital Club Welcomes Gifts Of Stamps

Editor's note — Mr. and Mrs. Emil Gleghing heard a plea for stamps for the Ionia State Hospital Philately Club and sent some. Following is a letter they received concerning the gift.

Ionia State Hospital
Philately Club
Drawer 494
Ionia, Michigan
April 11, 1964

Dear Friend:
Thank you very much for the stamps which you sent to our club. These were appreciated by all of our members when they were passed out at the meeting this morning.

We thought that you might like to know more about our club. This club was formed in 1958 with just nine members, under the direction of hospital employee: Wilfred J. Baragrey, and since that time has grown to nearly 80 members. This club is somewhat unique in a state mental hospital in that the meetings are run by the patients themselves who hold annual elections of officers. There are several committees and a study group. The members make up stamp displays which are shown throughout the area and, with the help of the hospital Occupational Therapy Dept., print a little monthly paper with informative stamp articles and club news. This is distributed to the members. The members drew up their own club charter and by-laws and a member serves as parliamentary helping to guide in the proper usage of the parliamentary procedures by which our meetings are run.

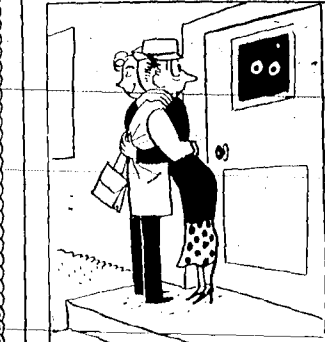

Besides being a fun filled, educational hobby which consumes much of the patient's spare time it is felt that many of the patients have been helped back to reality through getting them interested in stamp collecting and that taking part in club activities and learning to work together has better prepared many of them for a return to society as good useful citizens.

There is a continual need for stamps and stamp supplies to get new members started and to keep all of the members active and thus progressing along the road to recovery. This need comes about because many of our members are long term patients with little or no funds to purchase stamps for themselves and the state does not appropriate money for this purpose. If you would continue to save stamps for us they will be put to good use in this endeavor and will be much appreciated by all of the members. When stamps are received on paper, as torn from the corners of envelopes, the members soak the stamps off in lukewarm water, dry, and press them between the pages of magazines before mounting them in albums. This also gives them something more to occupy some of that excess spare time. Maybe some of your friends would be happy to have their stamps for us also.

Again, thank you very much for your kind donation of stamps. Sincerely,
Richard Brown
Club President
Wilfred J. Baragrey
Club Director

SUN LIFE OF CANADA

We're coming to that time of year when patio chefs like to outdo one another. Whether the object of attention is steak or pork chops, "that certain touch" applied in cooking and preparation is important. The right flavoring, the proper cooking time, seasoning and sauces — can add to appetite appeal.

You find "that certain touch" to be important elsewhere, too. Take, for example, the stores where you buy the things you need for home and business. You appreciate such things as prompt, efficient service. You like the feeling of confidence you get when you buy things which bear the label of an established manufacturer. It's good to know that a retailer backs up the things he sells with a guarantee of satisfaction.

That's why we think it pays to shop locally, where folks know and appreciate the value of doing things right.

Hold Home Economics Achievement Day

"Landscaping" was the subject of a talk by Marvin Davenport, County Extension Director for Iosco County, who very ably filled in for Joseph T. Cox who was unable to attend, at the Home Economics Achievement Day held at Maple Forest Townhall May 5th. Mr. Davenport told us how to go about planning our yards over a period of years. Warren Cook assisted with slides which visually described the progress over an eight year period as Mr. Davenport spoke. A question and answer time followed which was most informative. Reference material prepared by Joseph T. Cox, Extension Specialist in Landscape Architecture was available for members to take home with them. A very important point stressed to assure satisfaction and unnecessary transplanting of trees and bushes was to be sure to follow directions; as many of us can not visualize growth over the years or know the food requirements of various plant life.

Other activities of the day included registration of 47 members and guests for a door prize which was a rug made and donated by Mrs. Earl Broadbent with Mrs. Claude Sloan the happy recipient.

A Chinese Auction in charge of Mrs. Cole helped raise funds for the trip to Frankenmuth the ladies are going on May 12th.

Announcements made by Mrs. Kip Papendick included July 21-24 College week For Women - "Building Strong Families" - with Mrs. George Romney as guest speaker. A campout at Hardwood Lake on August 5 and 6th at which time Crawford County members will assist with a crafts program this year.

Mrs. Clayton Hildebrandt is the chairman for our "Kick-off" meeting September 10th with a program "What is Extension?" scheduled. This will be an open meeting so won't you plan to attend?

Einer Oldstrum met with the various group chairmen in regards to a pilot program to be tried out in Crawford County this coming year if present plans can be completed. Miss Doris E. Wetters will help us shape up our lesson programs. Joe Watson will assist us in a 4-H program if the ladies in the Extension Study Groups will add their support as sponsors. The 4-H program is for youth from 10 years of age through high school so here is a project where you can help your own children. Can the program count on your support?

Exhibits by several groups were on display and enjoyed by all. Bradford Lake Study Group which has only six members was represented by five who are living here now. The sixth member Mrs. Veatrice Shafer lost her home by fire March 29th so she is still in Florida at this time.

A potluck dinner took place at noon and was enjoyed by all. Mrs. Marius Rogale

for patients, she noted, explaining that for each 100 patients in the hospital, approximately 237 employees are needed.

Although costs of hospital care have risen, Sister Mary Janice, R.S.M., believes the patient is getting "a bargain" with the advanced methods employed today in hospitals. "The patient is made more comfortable, recovers faster and returns to his normal daily routine sooner," she added.

SCHOOL BAND NEWS

On May 7, 1964 the band traveled to Petoskey for the annual massed-band festival.

There were seven bands present, the Petoskey High School Band, the Petoskey Concert Band, Harbor Springs High School Band, Mancelona High School Band, Charlevoix High Band, Mackinaw City Band and the Grayling High School Band.

The program started with the playing of two numbers by each band, on which we were given constructive criticism by Walter Williams, the adjudicator. About our playing Williams had this to say: "King Cotton was played with a fine Sousa manner, a very good performance of a difficult march. A pleasure to hear your band; you produce a nice band sound and do very nicely in a number such as Green Leaves of Summer."

Next there was a parade through the streets of Petoskey. Immediate-

ly following this we had a massed practice in the gym to prepare for the concert presented for the public at 7:30 p. m. that night.

This was a full day for the band students. We left the school at 9:00 a. m. for Petoskey. As soon as we got there we had our lunch then went to the school to listen to some of the bands before we played at about 1:30 p. m. After the massed practice we had dinner. We left Petoskey immediately after the concert and arrived home at about 11:00 p. m.

This was an excellent opportunity for the band to observe and play with students from other towns.

Our director, Mr. Christian thanked us for our good conduct and for the neatness of the room assigned to us.

The final band booster's meeting of the year will be held Thursday, May 14. Please don't forget that every parent of a student in any of the three bands is a member.

We would like to thank the Grayling Woman's Club for their donat-

ion of one new band uniform.

We drove 3,243 miles to make a point about our Super Turbine transmission

You can do it on the way to the grocery store

Would we drive a Buick with a Super Turbine transmission* all the way from Pasadena to New York City just to win Class C in the Mobil Economy Run? Of course. And just in case anyone failed to get the message, we did it twice again. And won Class D and Class G. In all, Buick entered 4 classes, and won 3—more than any other make of car. (Remember when people used to think Buicks used a lot of gas?) Did we make our point about the Super

Turbine transmission? You bet. Obviously you aren't planning to drive 3,243 miles to prove your new Buick is economical. And you can't expect to get as many miles per gallon as the experts in the Economy Run. Still, it is nice to know you can win the economy run around town. And the good looks prize at the same time. See your Buick dealer about it. No doubt he'll think of a number of other reasons to drive a Buick.
